## **ROAD TO EXAM SUCCESS**

EZY

## **REVISION PLAN** END OF SECTION ASSESSMENTS

Our End of Section Assessments (ESAs) provide you with the perfect material to recap all the key topics, concepts and methods from each main section of the GCSE Maths course. There are six ESAs in total and each one contains 30 questions to provide full coverage of all the topics in that section.

### **Expected Duration**

This assessment contains a range of different question formats that aim to support learning and develop a deep understanding of the topic areas.

These assessments are aimed to challenge students with exam-style questions and therefore it is advised that students take their time when attempting the assessments.

### Fill Learning Gaps

Each question in the ESAs are followed by immediate video feedback to provide support with the assessment material.

This feedback is extensive in its nature and aims to encourage students to consolidate their knowledge or improve from any mistakes that may have been made.

## **REVISION PLAN**YOUR 10-WEEK EXAM JOURNEY

Week No.	Start Date	<b>Revision Activity Link</b>	Recap Booklet (Page No.)
1	6 <sup>th</sup> April	<u>Number ESA</u>	p5-21
2	13 <sup>th</sup> April	<u>Algebra ESA</u>	p23-34
3	20 <sup>th</sup> April	<u>Graphs ESA</u>	P75-81

10	8 <sup>th</sup> June	Maths Paper 3 Independent Revision	

# THE FULL EZYMATHS OFFER

We offer the complete learning package for students, teachers and schools to improve learning outcomes and boost exam grades. Take a look at the different features of our online course.

### **Course Videos**

Each topic area is supported by at least one lecture video. The videos utilise green screen technology to bring the topic to life and fasttrack learning outcomes.

#### Assessments

Each topic area contains at least one automatically marked assessment which is designed to test students' understanding of what they have learnt through the videos and in-class activities.

### Gradebook

Individuals and class progress can be reviewed to identify learning gaps and provide instant reports. Work can then be set easily to improve learning outcomes.

### **Recap Videos**

Videos that round up the key knowledge requirements of the main topic areas across the full GCSE course. The videos draw upon the key specification points that students need to know.
